Date of birth

14.04.2001

Virgiliu Pleşca

- PHP Developer -

Summary

- I am quite well familiar with OOP and SOLID principles.
- Know the basic principles of programming languages: C#, Java, PHP, Python, C/C++, HTML/CSS/JS.
- Have strong understanding of Rest API.
- Also I have basic abilities in networking (can make difference between TCP and UDP, know what is DHCP, DNS, Subnet Mask, TCP/IP, etc.).
- Also I can set up a linux based server (I've used VestaCP and Virtualmin as host control panel).

Work experience

- **December 2021 – February 2022. PHP Developer**
- I finished a .Net\Unity course in the summer of 2021.
- Also in the liceum I participated on Informatic olympiads each year, have three diplomas (for the last three years).

Projects

- **App which solves two *np-hard* combinatorical problems**
I've build an App using genetic algorithms and WinForms(C#) for my year project on collage (it is on GitHub). It solves the Traveling Salesman Problem and Knapsack Problem.
- **Web store to sell/buy milk products (MVC vanilla PHP)**
This web app I developed for a year project on collage. I used vanilla PHP, Apache, MySQL and MVC pattern. The app can be used by a seller as well as a costumer.
- **Online cinema (PHP + Symfony + MySQL)**
This is a web app which porpose is to provide access to movies. The app has an admin panel created with EasyAdmin bundle.

Education

Diplomă de bacalaureat, Liceul Teoretic Varatic

September, 2008 - May 2020

Informatica Aplicată, FCIM, Universitatea Tehnică din Moldova

September, 2020 – Present
